

**Campaign for Community Wellness
Minutes of Core Team Meeting
September 14, 2007**

Attendees: Maureen Bauman, Lynn Tarrant, Mike Lombardo, Richard Knecht, Lynn Marsenich

Facilitators: Streamline (Lauren OBrien & Seana Doherty)

Purpose of Meeting: To discuss the upcoming Steering Committee meeting and including expertise from CIMH in the process.

- 1) CIMH suggests framework for prevention/intervention discussion:**
Lynn talked about the fact that there is a continuum of indicators across the prevention and early intervention spectrum and that we should identify the target populations within each segment along the continuum.
- 2) Staff indicated that CIMH should review the MHPA guidelines for PEI:**
CIMH should review these guidelines as they develop the framework for our discussion at the Steering Committee meeting.
- 3) The team felt comfortable that CIMH could provide an appropriate level of factual information**
CIMH will tailor to our process/guidelines and help us by providing a framework for the planning process. There are universal risk factors that need to be considered and Lynn will present these and what they may mean for us.
- 4) Streamline will follow Lynn's presentation** (after lunch)
Streamline will present some initial County factual data that relates back to Lynn's presentation. Streamline will work with Lynn on Monday (9/24) as to how to proceed with the final piece of the afternoon. The intent is to have working sessions to get feedback and move the process along.
- 5) The goals of this steering committee are to come away with:**
 - a. A framework and common understanding of risk factors associated with mental illness
 - b. Identification of some initial indicators as it relates to Placer County
 - c. Discussion of needs and gaps with Steering Committee as it relates to the above.
