

COMMENT #1

Post Partum Depression and Psychosis

Need for obstetricians and pediatricians to inform all patients verbally and visually, i.e. pamphlets and bulletin boards in doctors' offices

Seek community help for finances and information throughout the neighborhoods

Communicate with county and state post partum depression programs

Curt and Dottie Blackford

COMMENT #2

A couple of comments on the Draft PEI Plan.

1) On page 26, the Incredible Years Program Roll Out grid includes Tahoe families. Please take this out, as Tahoe families will not be participating in program at this point.

2) On page 30, change language to "In Tahoe (50 % of Program) the program will be offered through a partnership between Tahoe Women's Services, other community based organizations and Truckee Tahoe Unified School District."

Thanks,

Alison Schwedner
Director, Community Collaborative of Tahoe Truckee

COMMENT #3

Lighthouse Counseling & Family Resource Center commends the efforts of the Campaign for Community Wellness and the Steering Committee to craft a well thought out plan for PEI resources. In the PEI several programs are mentioned that will look to community partners for program implementation. For example, page 26 of the PEI plan states the Incredible Years will be delivered through local Family Resource Centers. The plan does not articulate how these sites

will be selected. Will a bidding process be established? If the plan is to sole source pre-selected agencies, how was this process delineated? What will next steps be after state approval?

Angela Ficarra
Executive Director
Lighthouse Counseling & FRC
